? Succession to ritual office typically involves specific ceremonial processes that mark the transfer of authority and responsibility within religious or cultural groups.

? Primogeniture, ultimogeniture, seniority are succession rules that often influence the continuation of lineage, ensuring historical continuity and maintaining cultural identity.

? Corporate versus self-acquired property distinctions in descent groups often lead to control mechanisms that govern collective resources and inheritance, distinguishing between what is inherited as part of the family and what is individually acquired.

? Lineage and kinship systems generally imply a framework for property division and inheritance rights among descendants, influencing socio-economic structures within communities.

Hence, Option (1) is the right answer.

2. Match the following inheritance rules with their impacts on family structure and society:

1. Inheritance Rule Impact

- I. Primogeniture B. Stabilizes property control and discourages fragmentation
- II. Ultimogeniture C. Encourages the youngest child to care for aging parents
- III. Seniority D. Ensures leadership and responsibilities are based on age and experience
- IV. Gender-specific inheritance A. Can perpetuate gender inequalities within families

Choose the correct answer from the options given below:

- (1) I-B, II-C, III-D, IV-A
- (2) I-C, II-D, III-A, IV-B
- (3) I-A, II-B, III-C, IV-D
- (4) I-D, II-A, III-B, IV-C

Answer Key: 1

Solution:

? Primogeniture, where the eldest child inherits, helps in stabilizing property within the family by preventing its fragmentation across multiple heirs.

? Ultimogeniture, favoring the youngest child, often provides a social mechanism where the youngest is incentivized to stay and care for aging parents.

? Seniority-based rules ensure that leadership and responsibility transfers are based on the wisdom and experience that comes with age, promoting structured familial and societal roles.

? Gender-specific inheritance rules, which might favor one gender (commonly males), can lead to sustained gender inequalities, affecting both family dynamics and broader social equity.

Hence, Option (1) is the right answer.
